
FIRE AT SUNSHINE.

HARVESTER WORKS ABLAZE.

OUTBREAK UNDER CONTROL.

A fire broke out at the Sunshine Harvester Works at 20 minutes past 1 o'clock this morning. Within a few minutes flames burst through the light iron roof. Footscray and Newport fire stations each turned out a steam engine and hose-cart. Simultaneously the fire was seen from the look-out at Eastern Hill, and a motor-pump was despatched. Good chemical extinguishers are installed at the works, and with the aid of these the fire was got under control by 2 o'clock.
